

## **Akron Coffee Roasters Set to Open The “Coffee Lab” at Bounce Innovation Hub on November 18, 2024**

[Akron, Ohio], [10/30/24]

Bounce Innovation Hub is excited to announce that Akron Coffee Roasters will open the “Akron Coffee Roasters Coffee Lab” at Bounce on November 18, 2024, at 11:00 am. Akron Coffee Roasters is a popular destination in Akron and Cuyahoga Falls for connoisseurs of fine-roasted coffee.

Albert Masco, the owner of Akron Coffee Roasters, was inspired to open his coffee shops after living in Portland, Oregon, for a few years. Each cup is made fresh upon order, so customers know they are getting the freshest cup possible. Customers not only see the difference, but they also taste the freshness since the coffee is roasted in their shop.

With established locations in downtown Akron and Cuyahoga Falls, Albert looks forward to expanding to his third location at Bounce Innovation Hub. This exciting location fosters innovation, networking, and entrepreneurship. “We were already familiar with Bounce and are excited about the opportunities being in their building affords us. I was involved with the initial opening of Bounce, and our designer has his studio located there,” stated Albert, owner of Akron Coffee Roasters. “We can do a lot more at our Bounce location. We call it the Akron Coffee Roasters Coffee Lab, and we will try out new ideas and menu items that we hope to make available at all our locations.”

This Bounce location of the Akron Coffee Roasters Coffee Lab promises to be a popular destination for coffee lovers and food enthusiasts. It will offer an enticing menu of delicious salads, sandwiches, soups, and more! Plus, Bounce provides co-working memberships, meeting and event space rentals, private offices, and programming targeted toward entrepreneurs. The Bounce location offers a larger space for customers.

The ACR “Coffee Lab” at Bounce will focus on serving quality ingredients and creating a warm, inviting atmosphere for our community. Customers are greeted by the aroma of freshly ground coffee beans and the vibrant sounds of friendship and laughter among patrons. Expert baristas are dedicated to crafting the perfect cup of coffee, whether customers prefer a classic espresso, a creamy latte, or a refreshing iced brew.

A special ribbon-cutting and grand opening event takes place on Monday, November 18, at 11:00 am on the first floor of Bounce Innovation Hub in downtown Akron. Special discounts and other surprises will also be available throughout the day.

### **About Bounce**

Bounce Innovation Hub is the region's first open innovation hub, serving northeast Ohio's entrepreneurs, startups, and small businesses. Located in Akron, it comprises more than 300,000 square feet of co-working, event, and meeting space, plus office, lab, and light manufacturing space, and it houses more than 50 organizations.
